Ministry of the Economy

The Luxembourg-Poland Chamber of Commerce extends a formal invitation to you for the 5th Luxembourg-Poland Business Conference, scheduled for Thursday, 29th February 2024, from 10:00 to 16:30 at the prestigious Chamber of Commerce in Luxembourg, located at 7 Rue Alcide de Gasperi.

This year's conference explores the theme "PLLUS - Poland Luxembourg Synergies in Cybersecurity", delving into the overarching question: "What are the risks, alternative solutions and examples of practices in use facing both countries?"

At the heart of cybersecurity discussions lies the constant battle against evolving threats. It's not just about preventing breaches but also about continuously fortifying defenses, identifying vulnerabilities, and proactively responding to emerging risks. The Luxembourg-Poland Business Conference is dedicated to delving into critical cybersecurity issues, exploring effective strategies, best practices, and collaborative efforts between Poland and Luxembourg to strengthen resilience across various sectors in response to the ever-changing threat landscape.

Presented by the Luxembourg-Poland Chamber of Commerce in collaboration with the Polish Trade and Investment Agency, Luxembourg House of Cybersecurity, and the Luxembourg Chamber of Commerce, this year's conference is set to be a groundbreaking event. As always, the conference is held under the patronage of both the Embassy of Poland in Luxembourg and the Embassy of Luxembourg in Poland.
